# Why protect creations and documents with Copyright.eu ?

## Protection of creations

The international Copyright.eu service enables to obtain a reliable proof of anteriority in a few minutes, valid internationally and offering a strong legal guarantee.

## Legal protection of your creativity

By depositing on the Copyright.eu platform, you give **legal protection** to your important creations by proving their date and content (copyright).

Each certificate obtains a certain date, the files benefit from a secure evidential backup, and the deposit is registered in the Copyright.info register for public traceability. At the same time, you can obtain a Bailiff's report.
